

I am

different from normal people.

because

these kind of things...

are possible for me.

I can see...

ghosts

third

3. See a type that I find can be useful for some information for some information

I can see ghosts.

Also—

3. A good for you! It's not good to see them on the day of their passing until he knows the reason being given to them.

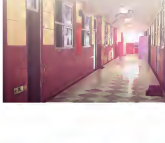

Ghosts can talk as well.

and I

ignore them

Just because they're ghosts, doesn't mean they harm people like in horror movies or anything.

but still..

I don't like ghosts.

The reason why I ignore them even though they're not scary or dangerous is because the moment you communicate with them—

You become haunted by the ghost.

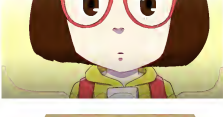

and it's a really bothersome to get haunted by a ghost.

and if you even say anything about this to the people around you

VROOOOOM—

anyways, I can see ghosts and understand them, but

I wish this useless, unfortunate ability would disappear.

I just want to

Live normally like everyone else.

WHEN-- WHY DO I  
FEEL SO TIRED TODAY?  
MY NECKLINGS FEEL  
HEAVY AS WELL...

I GET IT! MORE  
EXHAUSTED!

SHE TESTED ME THE ENTIRE  
DAY... BUT SHE MUST HAVE GOTTEN  
TIRED AS WELL.

THEN I'LL SEE YOU  
TODAY! DON'T BE LATE--

DON'T WORRY--  
BUT--

I'M BACK!

?

LOOK

WHAT IS THAT?

A STREET VENDOR? TO JUST  
LEAVE IT THERE IN THE MIDDLE  
OF THE ROAD...

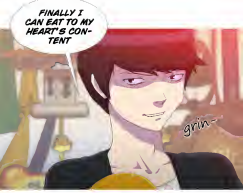

BUT...

DO THESE THINGS  
EVEN SELL?!

It's what is known as a 'lickable' which is a licker that gives a 'chuckle' sound if only licked by the sound
